For official use only
Entry Number: _____
Date Received: _____

Essay Theme: This essay contest challenges 7th and 8th grade students, girls and boys, to discover and publicize **women including women of color (non-white)** who made a difference in Science, Technology, Engineering, and Mathematics (STEM) fields, **but who received little or no recognition for their contributions while they were alive. Strong preference is given to essays about women who are not well known even today.** Describe one woman's STEM **contribution and its impact**, and clearly state **why you selected the woman** who is the subject of your essay.

Essay Guidelines:

- Essays must be no more than 500 words and include a bibliography with 3-5 sources (not part of the 500 words). Please follow the MLA style for formatting entries in the bibliography; multiple online sources describe the MLA format. Do not include photos or graphics.
- Essays will be judged for effectiveness in addressing the theme (description of the contribution, its impact, and your reason for selecting the woman), writing style (including organization, clarity, accuracy, originality in style, and word choice), and mechanics (including punctuation, grammar, spelling, and bibliography).
- Essays must be the student's original work. If an essay is found to have any indication of plagiarism or contains factual errors, it will not be eligible for an award.
- See our "Tips" page at <https://mclean-va.aauw.net/tips-for-preparing-essay-for-aauw-mclean-area-branch-stem-essay-contest/>
